ITA Teachers Accreditation

ITA Accreditation Program

Better Teachers, Better Education

At the ITA, we ask a very honest question: “Can you teach?”, go to university, get a degree and lecture students. If you want to be a more than that, invest in your future with the ITA Accreditation Process and begin your self-guided journey to becoming more than a teacher.

The ITA Accreditation Program focuses on skills and qualities that no other accreditation service values. The ITA Teacher Accreditation Program is driven to challenge teachers to evaluate what is important to them, their students and how to provide the very best education possible.

ITA Accreditation Benefits

1. Improved teaching skills and knowledge: Involves engaging in professional development activities and reflecting on one's teaching practices.
2. Recognition and reward: Teachers are recognized and rewarded by their school and are a source of pride.
3. Professional growth and advancement: Evaluate your weaknesses and challenge yourself to overcome them, become a better teacher and prepare yourself for leadership roles.
4. Enhanced credibility and legitimacy: Increase your value to your students and school by demonstrating a commitment towards improving your knowledge and skill sets.
5. Employment opportunities: Schools prefer to hire or promote teachers who are accredited, as it demonstrates a commitment to the profession and a willingness to go above and beyond in terms of professional development.

Georgia

Country

Georgia, a country at the intersection of Europe and Asia, is a former Soviet republic that's home to Caucasus Mountain villages and Black Sea beaches. It's famous for Vardzia, a sprawling cave monastery dating to the 12th century, and the ancient wine-growing region Kakheti. The capital, Tbilisi, is known for the diverse architecture and mazelike, cobblestone streets of its old town.
